THE PLATFORM

A *new era* for Golf & Give. Every detail managed. Every dollar tracked.

Golf Fundraiser Pro brings full tournament management to the 4th Annual Golf & Give — three registration modes, live online/offline scoring, a Guardian-branded leaderboard, automated communications, and real-time fundraising totals. One platform, built for events like this one.

REGISTRATION SYSTEM

Three ways to register. *Every golfer covered.*

Each mode is independently toggleable — close full-team slots when capacity is reached while keeping solo registration open for day-of walk-ins.

MODE 01

Full Team Registration

Captain registers the whole team in one session, or sends unique invite links to teammates to self-register into their assigned team slots. Confirmation emails sent automatically to every player.

MOST COMMON

MODE 02

Join an Existing Team

Individual golfers register independently and find their team by name or captain's invite link. Supports per-player pricing or a flat team fee — both configurations available per event.

FLEXIBLE

MODE 03

Solo — Need a Team

Solo players enter the Free Agent Pool with preferences (skill level, age group, pairing notes). Organizer uses one-tap auto-pair by handicap. Team assignment email sent automatically.

SOLO FRIENDLY

OFFLINE & LOW-CONNECTIVITY OPERATION

Works Anywhere — Even Without WiFi or Cell Service

Golf courses — especially rural Wisconsin courses — don't always have reliable connectivity. Golf Fundraiser Pro is built offline-first: every score saves to the device the instant it's entered, and syncs automatically the moment signal returns. No scramble is ever interrupted by a dead zone. Organizers receive a paper backup PDF for every team before the round begins as a last-resort fallback.

FUNDRAISING TOOLS

Every dollar raised, *tracked and celebrated.*

Golf Fundraiser Pro tracks all three revenue streams in real time — entry fees, hole sponsorships, and direct donations — showing a live combined total on the admin dashboard and on the public leaderboard throughout the event.

Entry Fees

Set per-player or flat team fee at event creation. Payment status tracked per team — paid, pending, or waived. Stripe integration for online payments in a future phase.

Hole Sponsorships

Assign a sponsor to any hole. Their name and logo appear on the mobile score entry screen and on the web leaderboard's hole tab — guaranteed impressions at the most-used moment of the event.

Direct Donations

Live fundraising thermometer on the landing page and leaderboard. Donor names shown publicly. Donation receipt emails auto-sent, including 501(c)3 tax deductibility note for CLHS.

Real-Time Grand Total

Combined total of all three revenue streams displayed live throughout the event on both the admin dashboard and the public leaderboard — giving every spectator a running impact count.

Mulligan Tracking

Hole challenge mulligan purchases are counted directly toward the fundraising total — every in-round sale is automatically visible in the real-time tally.

Tax Receipt Emails

For 501(c)3 organizations like CLHS, donation receipt emails automatically include the tax deductibility note and school information — no manual follow-up required.

SPONSOR PLACEMENT TIERS

Six placement locations. *Maximum sponsor value.*
